4age Turbo Engine

It was a 4-cylinder engine, which appeared long ago, in 1982. For the first time, it was a weak 4A-C with a carburetor. Its cylinder head consisted of 8 valves with one SOHC camshaft. The motor was modified within a course of time; it became more powerful, more advanced. Toyota 4A engine firing order is 1-3-4-2.

The fifth-generation 4A-GE engine produced from 1995 to 2000 is the final version of the 4A-GE engine and has black cam covers. It uses Toyota Variable Valve Timing (VVT) system on the intake cam. This engine is commonly known as the "black top" due to the color of the valve cover, and yet again features an even higher compression ratio (11:1).
