From a 'purist' perspective, some would argue that valuation is neither science nor art; it is its own subject entirely. However, from a general perspective, it may be argued that there are scientific elements to all art (e.g. music can be quantified and measured and transposed into written form), and therefore science and art can, and often are, interrelated.

Is Valuation an Art or a Science? - Marriott & Co.

"A good valuation is 75% art and 25% science because it takes into account the story behind the numbers of a business. Appraisals fall down when there isn't enough support for the story behind it.
